CAN YOUR DOG BE SEEN AT NIGHT?

RC Pets makes a great loose fitting Rufflective Cuff designed to float over your dog's collar and thick fur. It is highly visible and won't get lost in the scruff. Made with 1 1/2" thick elastic and accented with 3M reflective tape for added visibility. This Rufflective Cuff is NOT designed to be used as a collar. It is designed to enhance nighttime visibility. www.rcpets.com
